## Distribution Frequency

Annual

## Risk Measures (5-year) Class A vs. Aggressive Allocation Custom Index

Standard Deviation	8.14%
Downside Capture	93.40%
Upside Capture	91.82%

<sup>1</sup> Growth of \$10,000 for the years indicated is calculated at NAV and assumes all dividends and capital gain distributions were reinvested. It does not take into account sales charges (see Note 2 below) or the effect of taxes.

<sup>2</sup> Average annual total returns and calendar year returns assume all distributions are reinvested and reflect applicable fees and expenses. Class A share returns without sales charge would be lower if sales charge were included. Class A share returns with sales charge reflect the deduction of the maximum applicable sales charge of 5.75%. Class B shares have no up-front sales charge. If redeemed within six years, however, B shares are subject to a maximum contingent deferred sales charge of 4.5%. Class B shares may not be purchased or acquired, except for exchange from Class B shares of another Madison fund, please see the most recent prospectus for details. Class C shares do not have an up-front sales charge. They do, however, carry a 1% contingent deferred sales charge on shares redeemed within 12 months of purchase. Index returns reflect broad measures of market performance compared to the fund and reflect no deduction for sales charges, account fees, expenses or taxes. You cannot invest directly in an index.

<sup>3</sup> The fund's expense ratios are based on the most recent prospectus and include the weighted average expenses of the underlying funds in which the fund invests.

The S&P 500® Index is a large-cap market index which measures the performance of a representative sample of 500 leading companies in leading industries in the U.S. Aggressive Allocation Custom Index consists of 56% Russell 3000® Index, 24% MSCI ACWI ex-USA Index and 20% Bloomberg Barclays US Aggregate Bond Index. The Russell 3000 Index measures the performance of the largest 3,000 U.S. companies representing approximately 98% of the investable U.S. equity market. The Russell 3000 Index is constructed to provide a comprehensive, unbiased and stable barometer of the broad market. MSCI ACWI ex USA Index captures large and mid cap representation across 22 of 23 Developed Markets countries (excluding the US) and 23 Emerging Markets countries. With 1,843 constituents, the index covers approximately 85% of the global equity opportunity set outside the US. Bloomberg Barclays U.S. Aggregate Bond Index is an unmanaged index of U.S. fixed income securities. The U.S. Aggregate Index covers the USD-denominated, investment-grade, fixed-rate, taxable bond market of SEC-registered securities. The index includes bonds from the Treasury, Government-Related, Corporate, MBS (agency fixed-rate and hybrid ARM passthroughs), ABS, and CMBS sectors.

*Performance data shown represents past performance. Investment returns and principal value will fluctuate, so that fund shares, when redeemed, may be worth more or less than the original cost. Past performance does not guarantee future results and current performance may be lower or higher than the performance data shown. Before investing, investors should carefully consider the investment objectives, risks, charges and expenses of the fund. This and other important information is contained in the current prospectus. Please read the prospectuses carefully before investing or sending money. For more complete information about Madison Funds® obtain a prospectus from your financial adviser, by calling 800.877.6089 or by visiting [madisonfunds.com](http://madisonfunds.com) and clicking on prospectus and reports to view or download a copy.**

Madison Asset Management, LLC does not provide investment advice directly to shareholders of the Madison Funds. Materials on this document are informational only and should not be taken as investment recommendation or advice of any kind whatsoever (whether impartial or otherwise).

**Standard Deviation:** the dispersion from an average, which, for a mutual fund, depicts how widely the returns varied over a certain period of time. Higher deviation represents higher volatility. **Downside Capture Ratio:** a fund's performance in down markets relative to its benchmark. The security's downside capture return is divided by the benchmark's downside capture return over the time period. **Upside Capture Ratio:** a fund's performance in up markets relative to its benchmark. The security's upside capture return is divided by the benchmark's upside capture return over the time period. **Portfolio Turnover:** a measure of the trading activity in an investment portfolio—how often securities are bought and sold by a portfolio. It is calculated at the fund level and represents the entire fiscal year ending 10/31/2018.

An investment in the fund is subject to risk and there can be no assurance the fund will achieve its investment objective. The risks associated with an investment in the fund can increase during times of significant market volatility. The principal risks of investing in the fund include: asset allocation risk, equity risk, ETF risk, interest rate risk, credit and prepayment/extension risk, non-investment grade security risk, foreign security and emerging market risk.

Investing in foreign markets involves additional risks, including exchange rate changes, political and economic unrest, relatively low market liquidity and the potential difference in financial and accounting controls and standards. The portfolio may invest in small-, mid-sized, or emerging companies, which are susceptible to greater risk than is customarily associated with investing in more established companies. The portfolio may invest in high yield or lower-rated securities, which may provide greater returns but are subject to greater-than average risk.

The fund is subject to the risks of the underlying funds in direct proportion to the allocation of its assets among the underlying funds. More detailed information regarding these risks can be found in the fund's prospectus.

**For more complete information about Madison Funds®, including charges and expenses, obtain a prospectus from your financial adviser, by calling 800.877.6089 or by visiting [madisonfunds.com](http://madisonfunds.com) and clicking on prospectus and reports to view or download a copy. Before investing in the funds, consider the investment objectives, risks, charges and expenses. The prospectus contains this and other information about funds and should be read carefully before investing.**
