

**Summary Prospectus**  
**February 28, 2022**  
**Madison High Quality Bond Fund**

**Share Class/Ticker:** Class Y - MIIBX • Class I - MIIRX

Before you invest, you may want to review the Fund's prospectus, which contains more information about the Fund and its risks. You can find the Fund's prospectus, Statement of Additional Information (SAI) and other information about the Fund online at [www.madisonfunds.com/ProspectusReports](http://www.madisonfunds.com/ProspectusReports). You can also obtain this information at no cost by calling (800) 877-6089 or by sending an email request to [madisonlitrequests@madisonadv.com](mailto:madisonlitrequests@madisonadv.com). The current prospectus and SAI dated February 28, 2022, are incorporated by reference into this Summary Prospectus.

**Investment Objective**

The Madison High Quality Bond Fund seeks to obtain the highest total investment return within the policy limitations of (1) investing in bonds and money market instruments rated A or better, and (2) maintaining a dollar weighted average maturity of ten years or less.

**Fees and Expenses**

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table or example below.**

<b>Shareholder Fees:</b> (fees paid directly from your investment)	<b>Class Y</b>	<b>Class I</b>
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	None
Maximum Deferred Sales Charge (Load) (as a percentage of amount redeemed)	None	None
Redemption Fee Within 30 days of Purchase (as a percentage of amount redeemed)	None	None
<b>Annual Fund Operating Expenses:</b> (expenses that you pay each year as a percentage of the value of your investment)	<b>Class Y</b>	<b>Class I</b>
Management Fees	0.30%	0.30%
Distribution and/or Service (Rule 12b-1) Fees	None	None
Other Expenses	0.20% <sup>1</sup>	0.11% <sup>2</sup>
<b>Total Annual Fund Operating Expenses</b>	<b>0.50%<sup>3</sup></b>	<b>0.41%</b>

<sup>1</sup> Other expenses for Class Y shares have been restated to reflect expenses expected to be incurred in the current fiscal year.

<sup>2</sup> Other expenses for Class I shares are based on estimated amounts for the current fiscal year because the share class is new as of the date of this prospectus.

<sup>3</sup> Total annual fund operating expenses for the period ended October 31, 2021, for Class Y shares do not match the financial statements because the total annual fund operating expenses have been restated to reflect expenses expected to be incurred in the current fiscal year.

**Example:**

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The example assumes you invest \$10,000 in the Fund for the time periods indicated and then redeem your shares at the end of the period. The example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	<b>1 Year</b>	<b>3 Years</b>	<b>5 Years</b>	<b>10 Years</b>
<b>Class Y</b>	\$51	\$160	\$280	\$628
<b>Class I</b>	42	132	230	518

**Portfolio Turnover**

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when fund shares are held in a taxable account. These costs, which are not reflected in total annual fund operating expenses or in the expense examples above, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 13% of the average value of its portfolio.

**Principal Investment Strategies**

The Fund seeks to achieve its investment objective through diversified investments in a broad range of corporate debt securities, obligations of the U.S. Government and its agencies, and money market instruments. In seeking to achieve the Fund's goals, the Fund's investment adviser, Madison Asset Management, LLC ("Madison"), will (1) shorten or lengthen the weighted average life of the Fund based on its anticipation of the movement of interest rates (the dollar weighted average maturity is expected to be ten years or less), and (2) monitor the yields of the various bonds that satisfy the Fund's investment guidelines to determine the best combination of yield, credit risk and diversification for the Fund. Under normal market conditions, the Fund will invest at least 80% of its net assets (including borrowings for investment purposes) in higher quality bond issues and, therefore, intends to maintain an overall portfolio quality rating of A by Standard & Poor's and/or A2 by Moody's. The dollar weighted average maturity of the Fund as of December 31, 2021 was 3.30 years. The Fund generally holds 50-75 individual securities in its portfolio at any given time. This reflects Madison's belief that your money should be invested in Madison's top investment ideas, and that focusing on Madison's highest conviction investment ideas is the best way to achieve the Fund's investment objective.

Madison may alter the composition of the Fund with regard to quality and maturity and may sell securities prior to maturity. Under normal circumstances, however, turnover for the Fund is generally not expected to exceed 100%. Sales of fund securities may result in capital gains. This can occur any time Madison sells a bond at a price that was higher than the purchase price, even if Madison does not engage in active or frequent trading. Madison's intent when it sells bonds is to "lock in" any gains already achieved by that investment or, alternatively, prevent additional or potential losses that could occur if Madison continued to hold the bond. Turnover may also occur when Madison finds an investment that could generate a higher return than the investment currently held. However, increasing portfolio turnover at a time when Madison's assessment of market performance is incorrect could lower investment performance. The Fund pays implied brokerage commissions when it purchases or sells bonds, which is the difference between the bid and ask price. As a result, as portfolio turnover increases, the cumulative effect of this may hurt Fund performance. Under normal circumstances, the Fund will not engage in active or frequent trading of its bonds. However, it is possible that Madison will determine that market conditions require a significant change to the composition of the Fund's portfolio. For example, if interest rates begin to rise, Madison may attempt to sell bonds in anticipation of further rate increases before they lose more value. Also, if the Fund experiences large swings in shareholder purchases and redemptions, Madison may be required to sell bonds more frequently in order to generate the cash needed to pay redeeming shareholders. Under these circumstances, the Fund could make a taxable capital gain distribution.

Madison reserves the right to invest a portion of the Fund's assets in short-term debt securities (i.e., those with maturities of one year or less) and to maintain a portion of fund assets in uninvested cash. However, Madison does not intend to hold more than 35% of the Fund's assets in such investments, unless Madison determines that market conditions warrant a temporary defensive investment position. Under such circumstances, up to 100% of the Fund may be so invested. To the extent the Fund engages in this temporary defensive position, the Fund's ability to achieve its investment objective may be diminished. Short-term investments may include investment grade certificates of deposit, commercial paper and repurchase agreements. Madison might hold substantial cash reserves in seeking to reduce the Fund's exposure to bond price depreciation during a period of rising interest rates and to maintain desired liquidity while awaiting more attractive investment conditions in the bond market.

The Fund's investment strategy reflects Madison's general "Participate and Protect<sup>SM</sup>" investment philosophy. Madison's expectation is that investors in the Fund will participate in market appreciation during bull markets and experience something less than full participation during bear markets compared with investors in portfolios holding more speculative and volatile securities; therefore, this investment philosophy is intended to represent a conservative investment strategy. There is no assurance that Madison's expectations regarding this investment strategy will be realized.

## Principal Risks

The specific risks of owning the Fund are set forth below. You could lose money as a result of investing in the Fund. An investment in the Fund is not a deposit of a bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency, entity or person. The Fund's share price and total return will fluctuate. You should consider your own investment goals, time horizon and risk tolerance before investing in the Fund.

*Interest Rate Risk.* As with most income funds, the Fund is subject to interest rate risk, which is the risk that the value of your investment will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the market value of income bearing securities. When interest rates rise, bond prices fall; generally, the longer the bond's maturity, the more sensitive it is to this risk.

*Call Risk.* If a bond issuer "calls" a bond held by the Fund (i.e., pays it off at a specified price before it matures), the Fund could have to reinvest the proceeds at a lower interest rate. It may also experience a loss if the bond is called at a price lower than what the Fund paid for the bond.

*Risk of Default.* Although Madison monitors the condition of bond issuers, it is still possible that unexpected events could cause the issuer to be unable to pay either principal or interest on its bond. This could cause the bond to go into default and lose value. Some federal agency securities are not backed by the full faith and credit of the United States, so in the event of default, the Fund would have to look to the agency issuing the bond for ultimate repayment.

*Liquidity Risk.* The Fund is also subject to liquidity risk, which means there may be little or no trading activity for the debt securities in which the Fund invests, and that may make it difficult for the Fund to value accurately and/or sell those securities. In addition, liquid debt securities in which the Fund invests are subject to the risk that during certain periods their liquidity will shrink or disappear suddenly and without warning as a result of adverse economic, regulatory or market conditions, or adverse investor perceptions. If the Fund experiences rapid, large redemptions during a period in which a substantial portion of its debt securities are illiquid, the Fund may be forced to sell those securities at a discount, which could result in significant fund and shareholder losses.

## Performance

The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows how the Fund's investment results have varied from year to year. The table shows the Fund's average annual total returns for various periods compared to different broad measures of market performance. The Fund's past performance (before and after taxes) is not necessarily an indication of its future performance. Madison waived 0.10% of the Fund's annual management fee from August 7, 2020 through February 27, 2022. Investment returns reflect this fee waiver, without which returns would have been lower. Updated performance information current to the most recent month end is available at no cost by visiting [www.madisonfunds.com](http://www.madisonfunds.com) or by calling 1-800-877-6089.

### Calendar Year Total Returns for Class Y Shares

Highest/Lowest quarter end results during this period were:

<b>Highest:</b>	1Q 2020	2.68%
<b>Lowest:</b>	1Q 2021	-1.55%

### Average Annual Total Returns For Periods Ended December 31, 2021

	1 Year	5 Years	10 Years
<b>Class Y Shares – Return Before Taxes</b>	-1.76%	1.84%	1.35%
Return After Taxes on Distributions	-2.27%	1.21%	0.79%
Return After Taxes on Distributions and Sale of Fund Shares	-0.95%	1.15%	0.81%
<b>Class I Shares – Return Before Taxes<sup>1</sup></b>	None	None	None
<b>Bloomberg U.S. Intermediate Government Credit A+ Bond Index</b> (reflects no deduction for sales charges, account fees, expenses or taxes)	-1.60%	2.60%	2.07%

<sup>1</sup> The Class I shares are new as of the date of this prospectus; therefore, performance information is not available. Class I shares would have substantially similar returns as Class Y shares because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that the share classes do not have the same expenses.

After-tax returns are calculated using the highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns shown are not relevant to investors who hold their fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts. Returns after taxes on distributions and sale of fund shares may be higher than other returns for the same period due to the tax benefit of realizing a capital loss on the sale of fund shares.

### Portfolio Management

The investment adviser to the Fund is Madison Asset Management, LLC. Chris Nisbet, CFA (Vice President, Portfolio Manager) and Mike Sanders, CFA (Head of Fixed Income, Portfolio Manager) co-manage the Fund. Mr. Nisbet has served in this capacity since the Fund's inception in 2000 and Mr. Sanders has served in this capacity since February 2019.

### Purchase and Sale of Fund Shares

The minimum investment amount to establish an account in Class Y shares is normally \$1,000 for non-retirement accounts and \$500 for individual retirement and education savings accounts, and the minimum to add to an account is \$50. For an account established with an automatic investment plan the minimum is \$50 per month to establish or add to an account. For accounts with Class I shares serviced by the Fund's transfer agent, the minimum investment amount is \$250,000, and there is no minimum to add to an account.

The Fund will waive the minimum investment requirements for certain employee benefit plans and for certain financial intermediaries that submit orders on behalf of their customers, although the intermediaries may impose their own minimum investment requirements. The Fund may also reduce or waive the minimum investment requirements under certain circumstances and on a case-by-case basis if deemed to be in the best interest of the Fund.

You may generally purchase, exchange or redeem shares of the Fund on any day the New York Stock Exchange (NYSE) is open for business by written request (Madison Funds, P.O. Box 219083, Kansas City, MO 64121-9083), by telephone (1-800-877-6089), by contacting your financial professional, by wire (purchases only) or, with respect to purchases and exchanges, online at [www.madisonfunds.com](http://www.madisonfunds.com). Requests must be received in good order by the Fund or its transfer agent prior to the close of regular trading of the NYSE in order to receive that day's net asset value. Investors wishing to purchase or redeem shares through a broker-dealer or other financial intermediary should contact the broker-dealer or financial intermediary to learn how to place an order.

**Tax Information**

Dividends and capital gains distributions you receive from the Fund are subject to federal income taxes and may also be subject to state and local taxes, unless you are tax-exempt or your account is tax-exempt or tax-deferred (in which case, such distributions may be taxable upon withdrawal). Distributions from the Fund may be taxed as ordinary income or long-term capital gains.

**Payments to Broker-Dealers and Other Financial Intermediaries**

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank or trust company), the Fund and the Fund's distributor or its affiliates may pay the intermediary for the sale of fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your individual financial adviser to recommend the Fund over another investment. Ask your individual financial adviser or visit your financial intermediary's website for more information.
